

INVITATION TO A PRESENTATION

Our fight against Schistosomiasis: The current situation in the Lake Zone

Thursday, June 18, 2026

5:00 – 6:00 pm

**Neue Universität, Sanderring 2, Seminar room 3.2.1
free admission**

Prof. Humphrey Mazigo and Stella Mugassa from Mwanza will discuss their project to combat this neglected tropical disease, their fieldwork in remote fishing villages on islands in Lake Victoria, and their encounters with those affected. They will present new findings and offer fascinating insights into everyday life in Tanzania.

The lecture will be held in English. We look forward to welcoming many interested attendees!
